EXHIBIT " A "

This application is one of several to provide construction water for compaction, dust control and hydrostatic testing. The total project consists of 670 miles of 42 inch Natural Gas Pipeline from Opal, Wyoming to Malin, Oregon passing through Elko Co., Humboldt Co. and Washoe County Nevada. This application is being filed pursuant to NRS 533.371 for a maximum of 2 years and shall expire upon completion of the project. The diversion rate on some of the applications is unusually high because during the hydrostatic test they need to fill the pipe as quickly as possible.
